10/29 Beloit College 9:50

11/7 WIU 10:00

Swedish American Open House:

Swedish American Hospital will be hosting an Open House to provide information on the Medical Career Exploring Post that they will offer to area youth, ages 14-20. The Open House will be held on Tuesday, October 9th from 6:30 – 8:00pm at Swedish American Hospital in Rockford in Conference Room 2 in our first floor conference center. Parents and interested youth are encouraged to attend to learn more about the program and register to join the Post. The program will meet monthly during the school, giving students a deep-dive into a different Hospital Department during each session.

The Exploring program assists youth in learning more about career fields they are interested in, while developing leadership skills. Programs often involve tours, job shadowing, youth leadership opportunities and meeting people in the professional community that they are interested in pursuing. Registration for new youth is \$33.

For more information about Exploring Posts, you can visit www.exploring.org. For specific information about this medical field Post, please contact Becky Hopper at the contact information listed above.

NIU Engineering:

Your students are invited to learn more about the NIU Engineering @ RVC program featuring NIU's B.S. in Mechanical Engineering, which students can earn on the campus of Rock Valley College. The information sessions are on Wednesday, October 17 and Wednesday, November 7 from 5:30 to 7 p.m. at RVC.

NIU Engineering @ RVC program students have the opportunity for internships, mentoring and job interviews thanks to area companies pledging their support. This ABET-accredited NIU program, recognized for meeting the standard in quality engineering education, provides students with an education at an affordable cost. Students can earn NIU's B.S. in Mechanical Engineering AND an Associate in Science or Associate in Engineering Science degree at RVC for around \$40,000. That's a great value!
