

To sign up for HomeLogic, please navigate to the following website: <https://homelogic.winnebagoschools.org>.

When you see the login screen, first time users will need to click on the "New User?" link, which is a white line of text under the "Login" button.

1. First, select "Winnebago District" and click next.
2. Parent/Guardian is selected automatically, click on next.
3. Enter ALL of the required information. This information, except for Government Number, was on the demographics sheet you returned to school for registration.
4. Birthdate can be entered in many different standard formats. Please use a 4 digit year if possible. Examples include 01/02/1995, Jan 2, 1995, 1/2/1995, 1-2-1995, etc.
5. Government number is located on your student's progress report.

Clicking on register will either:

1. send a username and password to the email address we have for you on file.
2. allow you to enter an email address if we do not have one for you on file.

You will then shortly receive an email with your username and password in it. Return to <https://homelogic.winnebagoschools.org> and log in.

To change your password in HomeLogic:

1. Click on the 'Preferences' link on the left navigation bar.
2. The screen will refresh, and on the main window there will be a "Change Password" button.
